ADVANCED OFF ROAD SUSPENSION TECHNOLOGY

With over 45 years experience in extreme off road driving conditions **RHYNO** Off Road Manufacturing's, Engineering Division, are proud to offer the latest innovation in Advanced Off Road Suspension Technology - Precision made, the "**RHYNO SS**" Custom Full Length Bolt On Trailing Arm System offers all off roaders, from full competition to the weekend warriors, the opportunity to achieve full articulation and flexibility with comfort and strength.

RHYNO Air Ride SS

Dual adjustable long travel shock absorbers and heavy duty shock absorber mounting bracket to absorb harsh unforgiving off road conditions and provide superior ride, control and stability in extreme situations.

LOOKING TOWARDS THE FUTURE

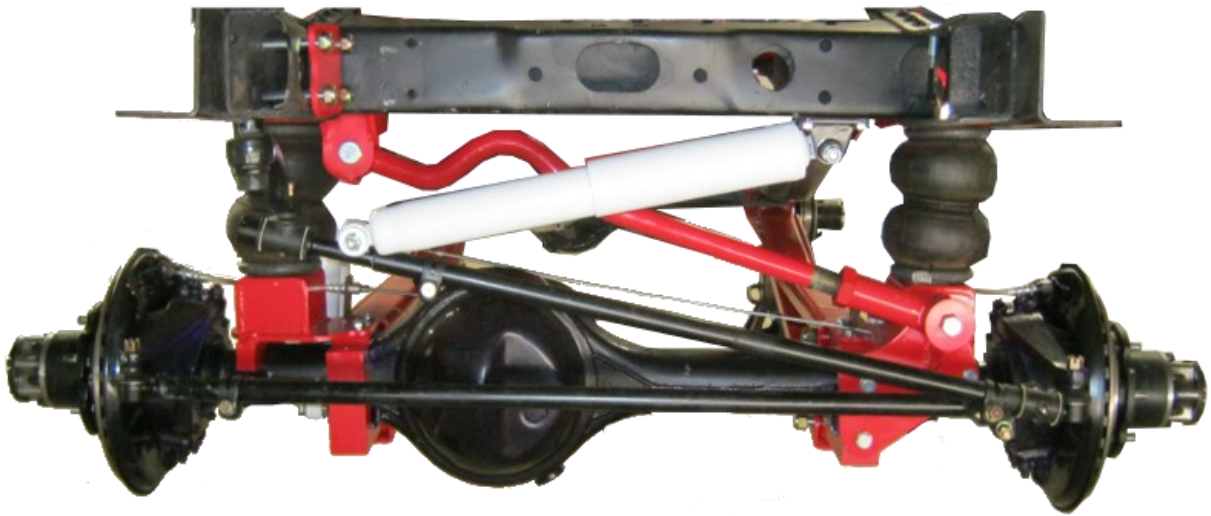

RHYNO SS Suspension Systems

Airbag & Coil Spring Suspensions

“RHYNO SS” AIR RIDE SUSPENSION -

The ultimate in off road suspension. Adjust your ride on the move, from soft to firm. Raise or lower your vehicle, on the move, at the touch of a button. Never get out of your vehicle to adjust tyre pressure again.

Heavy duty full 360 degree rotation arm mounting anchors, to allow for unrestricted movement of front and rear axle assembly's.

“RHYNO SS” suspension is designed and engineered for use in the most extreme off road conditions. Custom solid full length bolt on adjustable control arms and pan-hard rods.

LOOKING TOWARDS THE FUTURE

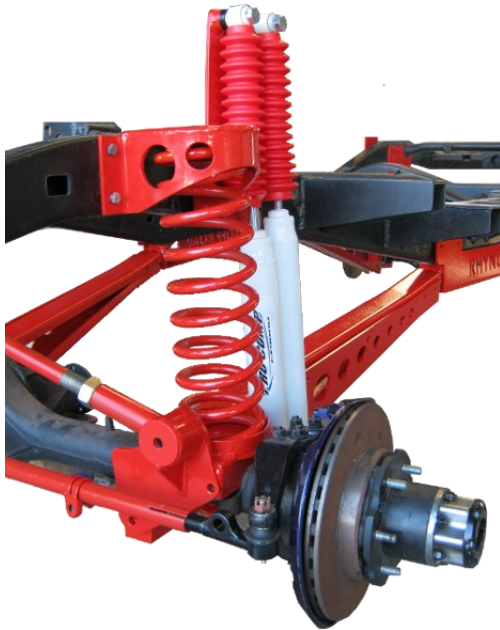

RHYNO **SS Suspension Systems**

Airbag & Coil Spring Suspensions

“RHYNO SS” COIL SUSPENSION -

Offering compact design and a smooth quiet ride, built tough for Australian conditions and customised to suit your application. Custom made springs available if required.

Tough bolt on bracketry for coil towers shock absorber, control arm, panhard rod, and other components. Simple design for easy access and replacement or maintenance.

Minimum wearing surfaces to provide long life duration of all moving parts and low cost maintenance for bush replacement. Massive articulation and flexibility to provide absolute domination over extreme rugged terrain.
